The life of sound.

Uni-Fi 2.0 Series by Andrew Jones.

The latest chapter in coherent concentric sound.

Improving upon the critically acclaimed Uni-Fi series, the Uni-Fi 2.0 incorporates numerous changes that elevate the performance beyond the originals. In a complete redesign; from drivers to crossovers to cabinets, this new series redefines what is possible from a compact affordable loudspeaker.

Uni-Fi 2.0 UF52 Floorstanding Loudspeaker

The Next Level

For larger environments or when you're looking for greater bass dynamics, the UF52 with it's multiple bass driver configuration will meet the needs of even the most demanding soundtracks or music. Using the same outstanding drivers and technology as the other models in the series ensures this compact, 3-way, bass reflex floorstander delivers a matched sonic signature.

UNI-FI 2.0 SERIES FEATURES

Brand New Custom-Designed Concentric Driver

A new wide-surround tweeter enhances it's low and high frequency extension allowing for improved blending with the midrange driver. An entirely new mid-range design features a larger diameter voice coil, new aluminum cone profile, new low-profile surround, and an all-new neodymium magnet assembly.

Newly Developed 5.25-inch Aluminum Woofer

A newly developed single piece aluminum dished cone results in improved stiffness. Combined with an oversized magnet, large diameter voice coil, and extended pole piece, these changes result in improved accuracy and bass dynamics.

Sophisticated Crossover

An enhanced design improves response linearity, improves driver integration and delivers a true 6-ohm nominal impedance for compatibility with virtually all AV receivers.

Robust Cabinets

Every Uni-Fi 2.0 enclosure is engineered with thick MDF outer walls and a luxurious black ash vinyl finish. Specially located internal bracing adds stiffness and strength to the cabinet's outer walls, reducing the cabinet vibration that causes unwanted coloration.

High Quality Base and Feet

An outrigger base design for the UF52 floorstander provides a larger, more stable footprint and allows optimum coupling of the speaker cabinet to the floor.

UF52-BK SPECIFICATIONS

SPEAKER TYPE	3-way bass reflex
FREQUENCY RESPONSE	42 to 35,000 Hz
NOMINAL IMPEDANCE	6 Ω
SENSITIVITY	85 dB @ 2.83v/1m
CROSSOVER FREQUENCY	200 / 2000 Hz
MAXIMUM POWER INPUT	140 Watts
TWEETER	1-inch soft dome
MID-RANGE	4-inch aluminum
WOOFER	3 x 5.25-inch aluminum
CABINET	CARB2 rated MDF-braced
CABINET FINISH	Black ash vinyl
PORT	3 x Dual flared
BINDING POSTS	5-way custom metal
DIMENSIONS (WxHxD)	7.28" x 38.58" x 10.83"
NET WEIGHT	43.34 lbs each
